

## Family Literacy Day: Social Media Guide

Family Literacy Day® is a national awareness initiative held annually on January 27 to raise awareness of the importance of reading and engaging in other literacy-related activities as a family. Taking time every day to read or do a learning activity with children is crucial to a child's development. Even spending just 15 minutes a day can improve a child's literacy skills dramatically, and can help a parent improve their skills as well.

Every year, hundreds of thousands of Canadians take part in Family Literacy Day. To continue to encourage more families and organizations to participate in this initiative and to help spread awareness of this important cause, ABC Life Literacy Canada is offering this social media guide.

Below is a list of pre-written Tweets, Facebook posts and discussion topics to help you promote the value of Family Literacy Day without having to worry about spending time crafting messages. These messages will help inform, inspire and engage. Together, we can increase awareness of Family Literacy Day and the literacy cause. We just need to make a lot of noise!
